Extended Warranty Program

Better through Responsibility

Standard Warranty Terms

All products manufactured by BEKO TECHNOLOGIES are warranted to the original buyer, for a period of 24-months.

The warranty period begins on the date of shipment or at BEKO TECHNOLOGIES discretion, the date of installation, where product is to be free of any defects in materials and workmanship, which render the products unfit for their intended use, and to conform to their specifications provided.

Any warranty coverage including any extended warranty requires that all maintenance procedures, including filter element changes, must be carried out in accordance with the manual in order to maintain warranty coverage.

For product lines

- DRYPOINT® RA
- DRYPOINT® RA HT
- DRYPOINT® RA LC
- DRYPOINT® RS HP

the warranty coverage is only provided if the following mandatory requirement is fulfilled; a CLEARPOINT® coalescing filter, Type-F (1 µm) or finer as manufactured by BEKO TECHNOLOGIES, must be installed directly at the inlet of the dryer.

For product lines

- DRYPOINT® M
- DRYPOINT® AC

the warranty coverage is only provided if the following mandatory requirement is fulfilled; a CLEARPOINT® coalescing filter, Type-S (0.01 µm) as manufactured by BEKO TECHNOLOGIES, must be installed directly at the inlet of the dryer.

BEKO TECHNOLOGIES maintains, at their discretion, the option to offer the same warranty on the aforementioned product lines where no filter is present or another manufacturer's filter has been employed, provided that the previously stated performance and installation requirements, as well as the product quality standards of BEKO TECHNOLOGIES, have been met.

The standard 24-month warranty for all products consists of a full warranty which includes parts and labour. Labour costs are limited to a maximum hourly rate of £42.75 and limited to certain maximum time allowances that have been predetermined by BEKO TECHNOLOGIES for a variety of specific maintenance and repair tasks. Incidental costs are not included.

Cover3More Extended Warranty Terms

The optional 36-month warranty extension (i.e. Cover3More) is a limited extended warranty that covers parts only from months 25-60.

However, all of the aforementioned installation, performance, and quality requirements must still be met in order to maintain extended warranty coverage. Failure to do so will render all warranties null and void.

The purchase price of the Cover3More limited extended warranty is not prorated and the current published purchase price is always applied.

Should the extended warranty coverage be purchased post-delivery or sale then the serial number of all products to which the warranty shall be extended must be provided to BEKO TECHNOLOGIES at the time of purchase.
